- **Iberdrola** places €800 million hybrid **Green** bond. The bond issued is perpetual but has a par call option in August 2030. The coupon has been set at 4.25%, making it Iberdrola's most competitive hybrid operation in the last 3 years. The proceeds will be used to refinance the renewable assets allocated to the 2019 hybrid that is being replaced.
- **Citycon Group** has successfully placed a EUR 350 million **Green** bond. The 5.25-year senior unsecured fixed rate EUR-denominated Bond matures on 11 March 2030 and pays a fixed coupon of 5.000%. Citycon's green financing framework reflects practices that support the transition to a sustainable and low carbon economy through the development of green assets. Proceeds allocated in accordance with the framework will be used to finance or re-finance eligible green assets in categories green buildings, energy efficiency, renewable energy or waste management.
- **Smurfit Westrock** has successfully closed multiple **Green** bond offerings totaling \$850 million due 2035 and €1.2 billion due 2032 and 2036. The successful green bond issuance marks a strategic alignment with sustainable finance trends and demonstrates Smurfit Westrock's commitment to environmental initiatives. The commitment to use proceeds for Eligible Green Projects strengthens the company's circular economy focus and environmental leadership in the packaging industry.
